Thursday, May 9, 2019  
11:45 am – 1:30 pm  
Executive Ballroom H  
Rosen Centre Hotel • Orlando, FL  

Gut Check:  
Current and Future Treatment Options for Intra-Abdominal Infections  

A Satellite Symposium held during the 22nd Annual MAD-ID Meeting, The Antimicrobial Stewardship Meeting®

Program Agenda
Lunch and Seating 11:45 am – 12:00 pm  
Speaker Presentation 12:10 pm – 1:15 pm  
Panel Discussion 1:15 pm – 1:30 pm

Realities in the Management of Intra-Abdominal Infections  
Joseph S. Solomkin, MD, FACS, FIDSA  
Professor of Surgery (Emeritus)  
University of Cincinnati  
Cincinnati, OH

Whetting Your Appetite: Current and New Therapies for Complicated Intra-Abdominal Infections  
Monica V. (Golik) Mahoney, PharmD, BCPS-AQ ID, BCIDP  
Clinical Pharmacy Coordinator - Infectious Diseases  
Beth Israel Deaconess Medical Center  
Boston, MA

Learning Objectives
After participating in this educational symposium, participants will be able to:

- Describe the pathophysiology and epidemiology of intra-abdominal infections (IAI)
- Evaluate the literature on current and future treatment regimens for IAI
- Identify the unmet antimicrobial stewardship needs for the treatment of IAI

Target Audience
This program is intended for pharmacists, physicians, microbiologists, nurses and infection control practitioners attending the 2019 22nd Annual MAD-ID. This Satellite Symposium is conducted at the 22nd Annual Meeting and is solely an activity provided by Tetraphase Pharmaceuticals and is not accredited for continuing education credit. The content of this Satellite Symposium and the opinions expressed by presenters are solely those of this sponsor and/or presenters and not of MAD-ID.

Onsite registration will be accommodated for those who have not pre-registered for the meeting as space permits.

Any questions, contact Alicia Hanrahan, CMP, HMCC at 203.373.0599 ext 1 or ahanrahan@agcomm.com.
